PROFESSIONAL SUMMARY

Junior full-stack developer with a diploma in systems development, experienced in building scalable, database-driven web applications using React, Node.js, PHP, MySQL, and REST APIs. Strong focus on clean architecture, API design, and real-world problem-solving, with proven ability to design and deliver complete systems from frontend to backend. Experienced in authentication, automation, and developing data-driven platforms. Passionate about leveraging modern tools, cloud platforms, and AI-assisted workflows to build high-impact software solutions in collaborative environments.

CORE COMPETENCIES

- Attention to Detail
- Debugging & Troubleshooting
- Time Management & Organisation
- Problem Solving & Analytical Thinking

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: PHP, Node.js (basic), REST APIs

Databases: MySQL, PostgreSQL (Supabase)

Tools & Practices: Git, GitHub, API Integration, Debugging

Concepts: Authentication (JWT), CRUD Operations, API Integration, Responsive Design, Database Design

EDUCATION

Diploma in Systems Development **2023-2025**

Boston City Campus | Johannesburg, Gauteng

Relevant Modules:

Database Design, SQL Programming, Systems Analysis, Software Development, Web Development, Object-Oriented Programming

National Senior Certificate **2018-2021**

National School of Arts

RELEVANT PROJECT EXPERIENCE

TrackMyJobs | Job Application Tracking System | Live

React, Node.js, Express, Supabase, PostgreSQL, JWT

- Designed and developed a full-stack, cloud-based system to manage job applications end-to-end
- Built secure JWT authentication with user-specific data isolation
- Implemented RESTful APIs and full CRUD functionality with filtering and pagination
- Developed real-time analytics dashboard for tracking application progress
- Integrated file upload system (CV handling) with validation
- Deployed using Netlify + Render + cloud database, simulating production architecture

Kaizen | Full-Stack Productivity & Workflow Management App | Live

PHP, MySQL, JavaScript, HTML, CSS

- Engineered a structured workflow system (To Do → In Progress → Done)
- Designed backend logic for efficient task processing and persistence
- Built dynamic UI with real-time updates for seamless user interaction
- Structured application for scalability and maintainability

CERTIFICATES & ACHIEVEMENTS

- FNB App Academy Certificate — July 2025
- Platinum Certificate of Achievement – Schools of Specialisation Launch — Dec 2019
- Gold Certificate of Achievement - Life Orientation — Dec 2019

EXTRACURRICULAR ACTIVITIES

- Participated in art exhibitions**,** presenting completed creative works to an audience.
- Completed individual and collaborative art projects, demonstrating creativity, planning, and attention to detail.
- Participated in an art competition, developing work within a competitive and structured environment.
